*Nowadays scientists can make copies of plants, animals, and even human beings. We call this "cloning". There is nothing new about cloning at all. Ancient Greeks cloned plants over 4000 years ago and the first cloned frog appeared in 1968. Twenty-nine years later, in 1997, Dr. Ian Wilmut and other follow researchers from Edinburgh University, Scotland, managed to clone an adult sheep from a single cell to produce a lamb (Dolly) with the same genes as its mother. Some people are worried because scientists started to think about cloning human beings.*

**First Term Exam (4AM)**

People eat different foods in different places. Let's take the example of Nepal. Nepal has no sea. Most people in Nepal are farmers. They grow grains, fruit, and other crops in the lowlands. The temperatures are very warm there. Rice and corn grow in terraced fields in the cooler hill regions. Potatoes and barley are the staple or chief crops at higher elevations. Temperatures are the cooler there.

The Nepalese raise goats, cattle and yaks for dairy produce. They eat meat only on special occasions. Religious rules affect which meats people in Nepal eat: Hindus, who make up almost 90 percent of the population, do not eat beef, and Muslims do not eat pork.

**Part One: (14Pt)**

## Second Term Exam

*Preparation for the test is very important and starts at home. Preparation is the work that pupils do before the test. But just how you go about it? The majority of the pupils revise for exams alone. This method may possibly be suitable for some children, but on the other hand it may well be the cause of the failure of many others.*

*Children who revise in groups may have better chances of success than those who revise alone. When they work in groups, they help one another by asking and answering questions that they might have in exams. Group preparation may also reduce stress if the children practise under test conditions.*

Dear Salim,

Thank you for asking me about what I'll do after taking the Brevet exam. Well, if I succeed, I'll go to the secondary school. I'll opt for the Foreign Languages stream. If I pass my Baccalaureate, I'll go to university. I will train to become a translator. If I get my diploma, I'll travel all around the world to see other people and make friends.

However, I know that life is full of surprises. So if I fail, I'll go to a vocational school. I'll train to be a computer technician. If I manage to get my diploma, I'll open a cyber café and work on my own. Of course if I make a lot of money, I'll build a house. I'll get married and start a family.

Yours,  
Karim

*Once upon a time , a long time ago , there was a knight who , as he grew older lost all his hair . He became as bald as an egg . He didn't want anyone to see his bald head , so he bought a beautiful , black , curly wig .*

*One day , some lords and ladies from the castle invited him to go hunting with them , so of course , he put on his beautiful wig . " How handsome I look !" he thought to himself as he was dressing in front of his mirror . Then , he set off happily for the forest .*

*However , a terrible thing happened . He was riding along , singing merrily to himself , when he passed under an oak tree and his wig caught on a branch and fell off in full view of everyone . How they all laughed at him ! At first , the poor knight felt very foolish but then he saw the funny side of the situation , he started laughing , too .*

*They were all still laughing when they arrived back at the castle . The knight never wore his wig again .*

**Third Term Test (2)**

Dear Dr Hakima,

I'm writing to seek your kind advice. I'm a four-year Middle School student. I took my Brevet last June and had a pass with merit. The problem is that I'm facing a dilemma as to the choice of the stream in which I will register in the lycée. My parents want me to register in the scientific stream whereas my choice goes for the literary stream.

Indeed, if I decide to register in the stream of my choice, I would realise the dream of my life which consists of becoming a translator. I would work very hard to get a literary stream Baccalaureate, which would allow me to register at a department of translation at university.

However if I followed my choice, my parents would be really disappointed. They want me to become a doctor. ...

In conclusion, I'm at a crossroads in my educational career. I don't know whether I must listen to my parents or decide about what to do with my school life on my own. What should I do?

Yours sincerely,  
Karim
